BEAUTE 2 SUIT THE SKIN CARE PROFESSIONALS

Our Facials for Men are specifically for men to maintain and balance the skin and to correct common problems that occur with men's skin. For those skin types relating to Irritation, Breakouts, Oiliness, Pigmentation, Dryness and Dehydration, right through to premature signs of ageing, fine lines and wrinkles. We take the time to get to know your skin with a free 15 minute consultation before starting any facial treatment.

Information

We ask you to arrive 10 - 15 minutes before your appointment time.

Shaving before a facial?

If you are having a facial in the morning, we suggest you shave the night before. If you plan to have a facial in the afternoon, then shave as normal in the morning. Remember shaving is a form of exfoliation to your skin and can cause irritation.

HANDS AND FEET

Men's Manicure

A Manicure can make a big difference. Giving attention to your nails and hands can make all the difference in an interview or on a special occasion.

Our men's manicures have been designed just for men. The therapist will clean, clip and file your nails and remove the built up cuticles from around your nails. Your hands will then be exfoliated to remove rough dry skin and the manicure will be completed with an application of a hydrating treatment, a hand massage and buffing of the nails.

Treatment: 60mins \$65

Men's Pedicure

Our men's pedicures are designed just for men and we focus on your feet as well as your nails. Starting with a foot soak, we then continue by clipping and filing your nails, removing any dry cuticles from around your nails and remove any hard skin from around your heels. Your feet are then cleaned and exfoliated and the pedicure is finished with an application of a hydrating treatment and massage. The end result, well groomed feet and an experience that is incredibly relaxing.

Treatment: 60mins \$75
